

WE ARE

PROBLEM SOLVERS

CREATIVE IDEAS

Demo and rigging is a thinking person's endeavor. Often the difference between a job that goes well, and one that lasts forever, is the idea on how to get it all done safely.

EXPERIENCE MATTERS

Where do those ideas come from? Decades of experience. Building it up starts with tearing it down, and we've seen more of both than just about anyone else.

OUR STRATEGY

Experience + Ideas, usually equals success. In our case, it is that we put this first, before any physical work is done, that makes for a successful strategy, and ultimately a successful job.

WHO WE ARE

The collective expertise inside the walls of Rendeq totals as much time in demo and rigging as companies three times our size. That, and a whole lot of faith, allows us to punch above our weight.

Meet us, and you will see, not only will we creatively bring your job in on time and on budget, we will also faithfully serve you, just as we have all of our customers for the last (almost) 20 years.

DEMOLITION & RIGGING

WHERE MATTERS

With our HQ in Haw River, NC, our homebase is the South-eastern US, but you'd be surprised at where we have worked.

Our focus is on the southeast. We serve our customers close to home, so we can serve as cost effectively as possible. On time. On budget. Everytime.

HOW MATTERS

When your primary focus is service, what you do is much less important than how and why you do it.

Because our mission is to serve, we think twice & do once. Everything we do is planned, safe, and with the goal of exceeding expectations.

WHO MATTERS

Our expertise cuts across many different types of customers, however, we are specialists in a few key areas.

We have been working with industrial equipment for 20 years. No matter the industry, we can rig it, move it, and set it back up anywhere & anytime.

WHO WE ARE

The collective expertise inside the walls of RendeQ totals as much time in serving our customers as companies three times our size. That, and a whole lot of faith, allows us to punch above our weight.

Meet us, and you will see, not only will we creatively handle your equipment on time and on budget, we will also faithfully serve you, just as we have all of our customers for the last (almost) 20 years.
